PROFESSIONAL EXPERIENCE

Wayfair   Boston, MA
Web Developer   *November 2015-March 2017*

- Styled multiple application flows for the B2B and Trade programs
- Contributed to the transition of a large codebase from legacy CSS and inconsistent design patterns to a scalable SCSS infrastructure leveraging componentized blocks of code
- Provided consultation on frontend best practices for multi-phase projects
- Implemented styling for A/B tests to increase lead generation and to identify conversion funnel chokepoints
- Optimized accessibility

Handshake   New York, NY
Marketing Engineer   *June 2014-September 2015*

- Developed and maintained the Handshake brochure site and blog inline with branding guidelines
- Converted all marketing sites to fully responsive builds to improve mobile UX and increase mobile conversions
- Rapidly deployed custom landing pages and other lead generation supporting content
- Implemented forms, tracking pixels and A/B testing for lead gen and to identify conversion funnel chokepoints
- Optimized SEO

Bandwdth   Boston, MA

Mobile Application Publisher   *September 2012-November 2013*

- Managed remote team for project with $135,000 budget from concept to production stage
- Conceptualized, drafted, and iterated company business plan during transition from general iOS consultation to a concentration on an in-house mobile healthcare platform
- Developed and maintained strong tech industry knowledge
